Hair isn't just hair—it's your rebellion, your joy, your story written in colour and cut.

I've spent five years in the industry obsessed with one thing: helping people express their truest selves through their hair. I'm drawn to the raw energy of rockstar and grunge aesthetics, the bold creativity of Japanese street style, and the playful spirit of kawaii culture. It's this mix of edge and whimsy that fuels everything I create.

I specialise in sharp, precision cuts that bring serious attitude and individuality to every look. Creative colour is where I truly come alive - whether you're craving vivid, head-turning transformations or softer staples like perfectly crafted blondes and rich coppers, I'm here for all of it.

My chair is your safe space to explore. Be bold, be soft, be extra, or just be authentically you. There's no judgment here - only creativity, skill and the excitement of discovering what makes you feel most like yourself.

Ready to turn your hair into your superpower?
