

# Lara Tree

@laratreehair

I'm Lara, and I believe luxury hair care should nourish both you and the planet.

As an organic colour specialist and master educator for Oway - a biodynamic Italian luxury brand - I've spent over 20 years perfecting the art of sustainable hairdressing. My journey has taken me from London Fashion Week runways to editorial shoots, bridal styling and finals at major industry colour competitions. But my true passion lies in creating the perfect look that fits seamlessly into your life.

**I'm all about holistic beauty.** Every service I offer - from creative colour to organic texture work - is designed with your wellbeing at the centre. I specialise in modern perms and plant-based keratin blow dries that give you gorgeous results without compromising your health or values. I don't just style hair; I create an immersive experience where luxury meets conscience.

What sets me apart is my deep connection to Oway's biodynamic philosophy. I have a wealth of knowledge about how organic ingredients can transform not just your hair, but your entire approach to self-care. Whether you're seeking subtle enhancement or bold transformation, you'll leave feeling like the best version of yourself - naturally.

Ready for more than just hair? Let's create something beautiful together.
